Health and safety Policy

The company will, as far as reasonably practicable take all measures to ensure the safety and health off all employees at their work. It will honour any commitments placed on it by all relevant safety legislation. These measures will also include provision, insofar, as is reasonably practicable, for the safety of other persons who the company does not employ.

Suppliers & External Providers

We consider our supply chain to be business partners; we demand similar business practices to our own and we work with them to deliver safe, reliable equipment and services.

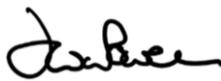

Local Communities

Our organisation reacts favourably towards local communities and charities, we operate a small annual budget providing services and equipment for communities and charities to enhance their goals.

Philosophy

An essential part of developing relationships with local companies and communities is a responsible approach to levels of safety and service that surpass expectation; trust, responsible reactions and a level-headed approach to decisions are a major factor in creating and delivering business success.
