

# Structures Built For You

Whether it's 1,200m<sup>2</sup> or  
8,000m<sup>2</sup>, we design and build  
poultry housing to suit you.

**POWELL & CO**

POULTRY

**Powell & Co Construction Ltd is proud to be one of the UK's leading manufacturers of commercial poultry housing and agricultural buildings.**

**Established in 1998, the family run business is dedicated to designing and building the best solutions for modern poultry production. Father and son team, Don and Jason Powell, deal with businesses of all sizes in a variety of locations and across a range of sectors. Operating from Kingsland near Leominster, Herefordshire, the team of over 70 employees provide the complete solution from initial design right through to bird delivery.**

### Whatever your flock we have the house

Whether its broiler housing, free range units, pullet rearing, breeding stock or turkey units, we can build bespoke structures to suit your specific requirements from 1,200m<sup>2</sup> to 8,000m<sup>2</sup>.

### Housing Built For You

Our experienced team will visit you to establish the requirements & specification of your shed. We will work in partnership with associated stakeholders from start to finish with regular site visits to ensure we meet your specification.

# Hassle

### 0% Hassle

Our experienced team take the hassle out of the project. The high standards from design to construction deliver solid, reliable builds that stand the test of time with continued support once operational.

### On Time On Spec

We guarantee that our builds will not only be constructed to a first-class, high quality standard, they will be built on time and on spec.

## Broiler Houses

From 4,000 to 100,000 bird houses, we are nationwide specialists in the design and build of high-quality broiler houses.

From initial design to bird delivery, we are experts throughout every stage to meet client's requirements from stock density to challenging site conditions.

- Tunnel, Ridge Vent or Powell's unique Summer ventilation systems
- Front canopies with catching curtains
- Step-over barriers
- Mortality hatches

We work with the stakeholders of your choice, to ensure you achieve the best and most efficient system for optimum return on your flock.

## Free Range Units

Our free range units are designed and built to typically accommodate 32,000 birds, although we build specifically to your flock size.

We work in partnership with your equipment suppliers to deliver an exceptional layout that achieves an environment that optimises freedom of movement for birds, maximising egg production.

Powell & Co free range units deliver the commercial benefits for flock health, egg production, packing and storage.

## Pullet Rearing

We understand attention to detail is essential in pullet rearing and nationwide we have built a wide range of units.

Our experienced team work closely with clients throughout the design process providing drawings and visuals to ensure specifications are met prior to build commencing. From the planning to initial site survey, ground works, construction and final sign off for bird delivery, we can take care of it all. For future flock success, we literally lay the foundations from the groundworks right through to finishing a unit that will rear pullets up to 15-17 weeks of age before being transferred to laying units.

Builds are completed to the highest standards and we fully understand the pressure of building to a deadline date, and recognise the challenges and changes that can occur during a tight build schedule.

## Turkey Sheds

We have designed, fabricated and constructed turkey sheds nationwide, enabling clients to achieve maximum commercial benefits from exceptionally well laid out sheds.

Our builds have included modern turkey breeding sheds along with free range sheds. We understand that producers often have bespoke specifications for house size, particularly height and we are experienced in meeting these requirements.

In addition to new sheds, the Powell & Co team have completed a number of refurbishments to improve the performance of the shed, the environmental credentials and overall appearance.

## Timber Frame or Clear Span

The Powell & Co timber framed poultry houses are the perfect solution for a customer wanting a timber framed build, which in some cases can be a cheaper option compared to steel and more cost effective.

Buildings can be steel, timber clad, or finished with a mix of the two cladding options creating an attractive end solution.

Our bespoke construction service and build quality are second to none with each build completed to the customer's exact requirements.

## Ancillary Buildings

A project often extends beyond housing just for birds and as such we are experienced in incorporating amenity buildings into your project, either alongside poultry housing construction or as a later addition.

### Customers have a wide range of requirements including:

- New clean and dirty segregated buildings
- Offices and meeting rooms
- Staff facilities, showers, WC
- Canteen
- Catchers welfare facilities
- Storage and packing areas
- Workshops
- Biomass rooms and storage

## Refurbishment

We offer the complete solution for all poultry houses and agricultural buildings when a refurbishment is required.

From converting to free range, internal re-fits and extensions, we are experienced in all aspects to ensure your poultry housing is maximising its potential and lifespan.

### Recent refurbishment projects include:

- Extending length of poultry housing
- Change of ventilation system
- Conversion to free-range
- Repairing shed entrances following catcher damage
- Retro fitting windows to conform with Red Tractor
- Housing enhancements to conform with assurance schemes
- Timber and steel cladding

## Steel Fabrication & Farm Buildings

With our extensive experience of the agricultural sector we have forged a great reputation locally and nationwide for timber and steel agricultural buildings.

The portfolio we have designed and built is extensive and includes buildings of all sizes for storage of grain, potatoes, machinery and livestock. For businesses that are looking to grow or diversify, our team are experienced in assisting with extensions, conversions and internal re-fits.

Whether it is office space, equestrian stables or yard, workshops, biomass plant rooms we can meet your requirements. With our steel fabrication site at Shobdon we are a leading Kit-Form supplier for farm and industrial buildings for clients wishing to erect steel using their own resources.

### The Powell & Co Kit-Form package includes:

- Absolute quality in design
- Engineers calculations
- General Arrangements drawings
- CE Accreditations
- Delivery to site

## What makes us different

At Powell & Co we're proud to have a number of long-standing customers who we've worked alongside as their businesses have grown, in addition to many newer ones that have come to us through personal recommendation.

**From the moment we dealt with the team right through to completion the service has been brilliant. It has been a pleasure dealing with the whole team and it felt like they were literally just down the road. The quality and finish of our building is second to none and is a real showcase from the A66.”**

Will Patterson,  
Free Range Unit  
Cumbria

**Throughout the build, we were kept up to date with the progress of each stage and this was really helpful as the different contractors worked on relevant sections of the unit. The team on site were great and worked really hard. It is a good quality build, everything works really well and we have not been disappointed.”**

Mark and Pauline Roberts  
Pullet Rearing Unit  
Welshpool

**The decision was instant to use Powell & Co to build our broiler houses. The team were excellent throughout the build, offering value for money, fantastic communication and they delivered a first-class build. The workmanship and standard of aftercare service have been brilliant. Even when Powell's have left the site don't worry, "You'll Never Walk Alone" as they say from my home town of Liverpool.”**

Elliott (Agriculture) Ltd  
Broiler Houses  
Wrexham

**It felt right, the fit, I like the idea of Powell's being a family business. This proved to be the right decision, especially the after care. Powell's don't leave you once they've put the four units up. The team have remained in touch, their support, enthusiasm and energy radiates through to myself as the customer.”**

Mark Holt  
Turkey Sheds  
Staffordshire

## We won't forget

Our after care service ensures that we will not forget you. Our team will keep in touch to check on the performance of the building and return to fix any problems.
